Assessor Comments	A rare opportunity to secure some outstanding poll merino breeding ewes running back to poll merino rams. These A/M 2020 drop ewes are part of RJ Norris 'near' full flock dispersal due to unfavorable seasonal conditions with only ewe hoggets' being retained. Ewes are Glenville blood, Aug shorn, M&TS and were preg tested this season with all dry ewes sold off. This is a classed in line with the vendor having their ewe hoggets classed by Glenville's stud master every year. Poll merino rams have been running with the mob at 4% since the 23-10-24 and will continue running with until delivery. All Ewes were shorn mid Aug with the exception of 5 head being shorn in mid-June being in a different mob at the time. With over 50 years of breeding from a very merino passionate vendor you will struggle to find better ewes if you're looking for large framed wool cutting sheep with great fertility and mothering traits.
