Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	206 2.5 Yr old 1x Kiranda Highlander/ Merino ewes. These are a productive moderate framed ewe purpose built to produce more lambs per hectare, whilst still producing prime lambs. Vendor started moving into the Kiranda Maternal composite (Highlander) by breeding into them from there Ridgeway Advance based Merino flock. Since being able to produce a more pure bloodline, these ewes are no longer required. These ewes marked 130% as Hoggets and given the right conditions as they mature will be able to produce 145-60% lambs. Vendor regularly takes lambs through to a heavy export weight. These ewes are Gudair vaccinated & tail stripped. Ideal ewes to either start a flock with or add to an existing operation in a very buoyant lamb market.
