	Stirry: 2 head		Stirry: 6 head	
	This mob of steers were good to handle throughout the yards and flowed well without needing excessive pressure to be applied. Steers were pretty typical to handle and assess in the headbale with the usual objections to being mouthed with anything stirring up quickly settling once returned to the mob.

	1 Head Strong headed checked is definitely cut			
	1 Head Weak Spined			
Assessor Comments	Here presents a quality line of steers in strong store condition with great compensatory weight gain potential. These steers are well handled and have been performing well on drier pastures and would be ideally suited to either finish on grass or in the feed pen. These steers were pretreated at assessment to assist in the clearing process if required. Please note the vendor has some lighter brothers available if required to fill a truck.
