Calves still on their mothers. Became a little agitated when separated from their mothers in the crush. Will need to be

	weaned and handled.
Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	Top line of Angus X Angus unweaned steer calves. Calves are 8 - 9 mths of age and will be left on their mothers until delivery. Vendor has been breeding Angus cattle for 20 years and always purchases at the top end when buying bulls ensuring the best genetics are filtering through the herd. Steer calves are by Millah Murrah bulls showing true to type Angus breed characteristics with good bone, length and conformation. Ideal steers to background for the high end Angus grass or grainfed programs. Steers were good to handle through the yards and crush. While taking the video they did run a little but with good weaning, breaking and handling they will be fine. Note: 1 steer with white patch to Pizzle.and 1 with white on and around pizzle Odd blue eye scarring- not considered detrimental. All can be seen in photos and video.
