| | Calves still on their mothers. Became a little agitated when separated from their mothers in the crush. Will need to be weaned and handled. |
| Handled With | Bikes , Dogs , On foot , Vehicles |

| | |
|---|---|
| Assessor Comments | Top line of Angus X Angus unweaned Heifer calves. Calves are 8 - 9 mths of age and will be left on their mothers until delivery. Vendor has been breeding Angus cattle for 20 years and always purchases at the top end when buying bulls ensuring the best genetics are filtering through the herd. Heifer calves are by Millah Murrah bulls showing true to type Angus breed characteristics with good bone, length and conformation. Ideal Heifers to Keep as Future Breeders with a Wealth of Angus Breeding behind them or to background for the high end Angus grass or grainfed programs. Heifers were good to handle through the yards and crush. While taking the video they did run a little but with good weaning, breaking and handling they will be fine. Note: Odd blue eye scarring- not considered detrimental. All can be seen in photos and video. |
