These steers are good to handle. Well broken in and worked through yards and over scales easily. Very good to handle in the paddock as well.

Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	A small lot of very well bred Hereford steers. They are all frame and bone - purchaser is not buying condition. Well grown, heavy bone, good length and natural thickness. Still losing some old hair however will thrive on crop or improved country. Easy to handle and well marked Hereford steers. Out of large & very large frame cows and these steers should mature into large frame steers. Sired by Yaven Vale and Curracabark Stud Hereford Bulls - bulls selected for confirmation, growth and marbling. In the past these steers have performed very well on grass or grain. Would fatten very well on crop or grain for either domestic or heavy export markets. Up to date with all their vet treatments. Antibiotic Free and Grass Fed market eligible. Plenty of upside to these steers and will suit large or small operators. Good steers.
