Steers flow and handle well through yards and assessment process. Some were slightly agitated when drafting with new

	person in round yard. Walked very well through race and all stood calmly on scales.

Assessor Comments	32 March/April drop Angus steers. Weaned, Vendor bred, grass fed only, drenched Ivomec injectable in October 2x5in1. Steers are from a great herd of medium to large framed cows originating from pathfinder bloodlines with these calves being sired by Harris farm Angus bulls. Well bred young cattle with great weight for age (oldest 8 months) that present in good store condition and given the opportunity will continue to perform and are ideal to take on to any feeder or kill market in the future.
