Heifers were easily drafted and assessed, remarkably animals were excellent in the confines of crush. However, I did feel three animal were unsettled in yards. In paddock cattle are inquisitive and mill around people.

Assessor Comments	VG draft of vendor bred Angus heifers that have been keenly sort after by restockers for many years. Banquet bulls have been the primary sires for over a decade, however in this draft Rennylea bulls were bought to bolster IMF & EMA. The highly regarded Wantabadgery cows (Yamba blood) were added to the herd two years ago and there calves are represented with an identifying management tag. At weaning calves were fed Irwin's grain free pellets which has helped ensure good weight for age. Heifers present in good forward store condition.
