Steers were a good to handle, having been well handled by vendors throughout their lives. Approximately 6 steers were keen to move out of crush but generally the cattle were very quiet. Two steers were seen to be in constant movement however there were no issues drafting, photos or weighing.

Handled With: Bikes , On foot , Vehicles

Assessor Comments
A well bred draft of Angus steers on offer. Steers are vendor bred by Rennylea Angus bulls, out of quality Angus cows with Rennylea, Brooksby, Glenavon & Raff bloodlines represented. They have wintered well and are on the do having shown significant weight gain in the past 6 weeks. Do note, steers were split at assessment and videos & photos taken over two

	yards but are offered as one lot. Ideal steers to go onto feed or into a grassfed program with previous purchasers feedback positive. A terrific opportunity to acquire Angus steers with plenty of breeding to background or finish to heavy feeders or export weights.
