Handled With			
Assessor Comments	100 EU Angus yearling Heifers Sept/October 2023 drop Average 294.4 kg Curfew. They are well bred from Granite Ridge Angus and Pathfinder blood lines showing plenty of growth & frame. These Heifers have come through a dry Autumn and Winter, they are doing very well at present and are ideal to grow out on grass to make into feedlot weights, finish off for the trade or join to a bull of your choice and keep as future breeders. They are a good even draft of heifers individually weighed between 286 and 376kg. Will perform well for any operation. All the hard work has been done. Have not had access to any bulls.
