Other Treatment	11/10/2024	Cobalex, B12, Selenium.	

Eligibilities: Russian Eligible Saudi Eligible PCAS Eligible

J-BAS Score: 6

Vendor Comments: Annual sale of EU Weaner steers. We are very happy with the way they have performed in a relatively tough season.

Quality Grades		Store Condition		Muscle Score	
Very Good	100%	Fwd Store	80%	C	10%

	Store	20%	D	90%

Temperament

Yards	Crush	Paddock
Docile: 29 head	Docile: 15 head Quiet: 12 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

A very docile line of calves. A credit to the vendors management practices.

Handled With Bikes , On foot

Notable Traits

	Traits
2 Head	small dry ringworm patches around the head and neck area.

Assessor Comments A very tidy line of EU accredited weaned steers. Everything about these weaners is right. Properly weaned, very carefully managed, beautiful temperament, on a rising plane of nutrition, EU accredited. They were weaned on the 11th October, using a crontrolled small paddock system, which has worked very well. They were weaned onto cereal hay and Transforce Weaning Treatment, and have been trained on mineral loose licks since birth. The vendors have used Nampara and Binnowie bulls in recent seasons, joined to Nampara and Pathfinder cows. The calves are very fresh and even in appearance, due to a tight 8 week joining period. They have been managed with electric fencing, and are very easy to handle. Please note: there is the very odd white underbelly in the mob, due to an infusion of Simm/Angus bulls a while back. They are March/April 2024 drop, and will present in good fresh forward store condition. The very odd calf also showing some signs of old ringworm patches around the head and neck
