Assessor Comments	These heifers are a quality line of organic certified heifers. They would be ideal for any organic backgrounding operation should they remain in tick area. Heifers have been 100% grassfed, displayed soft skin, with good heads and standing on good bone underneath. These heifers should grow out and make future breeders that would suit most operations. Please note approximately 6 heifers showed white face or underline, with 1 heifer showed rub marks on neck and shoulders.
