backgrounders or feedlotters or also for a potential buyer to retain as future breeders. Please note that the vendor has tried their best to ensure heifers are empty with all heifers being treated with Ovuprost. Also note that 4 head were observed with warts, 5 head with blight scarring (1 head in both eyes) and 2 head with white on the udder all deemed not detrimental. Cattle are located on the highway just east of Inglewood for easy truck accessibility.
