Assessor Comments	Buyers here presents a great opportunity to buy 2 decks of high performing heifers from the renowned Hudson family herd. These heifers are best described as mainly good to very good quality. Good bone, structure and confirmation. 100% weighed at assessment to average 285 kg curfewed. Heifers will make an ideal feeder heifer. These heifers were bred using good quality Angus, Simmental, Droughtmaster and Limousin bulls out of a soft Droughtmaster/Euro/British X cow. Cattle come highly recommended from both a performance and temperament perspective. 42 heifers were weaned approx. 8 weeks ago. These heifers were educated very well to the yard environment and also outside the yards using horses, dogs and bikes. Remaining 38 heifers were weaned approx. 1 week ago. By the time of delivery these freshly weaned heifers will also be fully weaned and educated. Hudson family cattle are naturally quiet in both yards and paddock. Another 3 decks steers same vendor in this sale.
