Assessor Comments	47 Excellent quality NSM future breeder Angus heifers. 12 - 14 months old, these heifers are in forward store / store condition and averaged 370kgs (curfew weight) at the time of assessment. Vendor has used pure Abbington bloodlines for over 30 years and has always grown out really efficient breeders. These heifers would make great future breeders. Heifers are moderate framed and display plenty of depth, shape and bone early on and will only continue to improve with age and development. Please note buyers there are 2 heifers with warts present. 4 heifers with a small section of old ring worm scarring around neck and jaw region. 6 heifers with white udders but no white in front of the navel. A second line of lighter heifers will be offered in the same sale also.
