Vendor has used pure Abbington bloodlines for over 30 years and has always grown out really efficient breeders. These heifers would make great future breeders. Heifers are moderate framed and display plenty of depth, shape and bone early on and will only continue to improve with age and development. Please note buyers there are 3 heifers with warts present. 3 heifers with a small section of old ring worm scarring around neck and jaw region. 9 heifers with white udders but no white in front of the navel.
