Assessor Comments	A quality line of classed in Santa heifers, Vendor has purchased top quality breeding females in the past to increase the genetic base of the herd whilst also securing bulls carrying leading genetics and the desired cherry red coat, long deep bodied and natural softness. Vendor isn't retaining any females this year, Heifers are benefitting from improved seasonal conditions as a result dropping their winter coat, given the right opportunity these heifers should grow into very nice females for breeding programs. Heifers are true to type and show sound confirmation
