| Assessor Comments                     | <p>Nicely bred line of NSM heifers. They are well grown for their age and soft feminine types. All heifers were weighed 360-470kg @ assessment with any off types removed from the group after weighing to present a nice tidy line of females. The carry a clean bill of health and stand in slightly forward condition and evenly as a group. Ideal to join to a bull of your choice or alternatively grow out to heavier weights. Please note vendor also offering a similar line of 70 heifers on another nearby property. Please call for further information.</p> |  |
