The heifers were easily handled in the yards. They moved through the yards and crush without stress or agitation. Two heifers were a little shy of the scales.

Assessor Comments	These vendor bred Angus heifers present in good forward condition and show the maturity which should enable them jump ahead when put onto fresh feed. They have come through a very tight cold Mansfield autumn/ winter period but are doing well now. They are by Adameluca, Kelly Angus and Riddellvue bulls. These heifers were all pregnancy tested empty earlier in the year. They were drenched with Cydectin pour on in early October and had 2 x 5 in 1 vaccinations as calves. They would be ideal heifers to join now or at a later date. One heifer was noted to have an old pink eye scar. There are another lot of 35 heifers in this sale which will be sold as a run out the gate.
