good compliant cattle, easy to handle.

Handled With: Bikes , On foot , Vehicles

Assessor Comments: A small line of 12 unweaned vealer steers, these steers are being offered on A+ for the first time. Normally these cattle would be sold at Naracoorte in one of the two special weaner sales. Due to the season being so short they need to be offloaded a month earlier. The herd is predominantly AA cows with a percentage being AAxMG (grey in colour), vealers

	sired by Angus Pathfinder blood bulls or Shorthorn Bulls (Caskiben and Trojon blood) This line of calves will include 8 blacks, 2 grey baldy and 2 greys as they were at assessment. Bottom weight of 194kg top weight of 243kg at assessment to avg 214kg. calves were returned to the same paddock on the cow after the assessment. This line I would imagine to be the younger cattle in the line, the dry calves were drafted off and not included in the assessment.
