Assessor Comments	A neat line of 22 unweaned vealer heifers, these steers are being offered on A+ for the first time. Normally these cattle would be sold at Naracoorte in one of the two special weaner sales. but due to the season being so short they need to be offloaded a month earlier. The herd is predominantly AA cows with a percentage being AAxMG (grey in colour), vealers sired by Angus Pathfinder blood bulls or Shorthorn Bulls (Caskiben and Trojon blood) This line of calves will include 19 blacks, 2 greys and 1 black baldys as they were at assessment. Bottom weight of 179kg top weight of 225kg at assessment to avg 205kg. calves were returned to the same paddock on the cow after the assessment. This line of heifers would be the younger of this year's calves, with the dry calves from the mob not being included in the assessment.
