Comment on Fat Score 1 Cattle: Cattle are in a strong store condition at assessment, predominately 3 and 4 mm of fat with ample energy. would look to have no concerns trucking long distances. All steers have been in hand for a week prior to assessment alongside trucking to downs fattening block and have lost their milk condition in this period.

Docile: 18 head Quiet: 102 head	Docile: 10 head Quiet: 106 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Steers have been given a very good foundation to their education and worked extremely well through the yards. Small percentage baulked going into the weigh box with the odd steer also pushing in. when moving between bigger yards steers worked very well and had little to no trot with no-one controlling the lead. exceptional temperament that will only improve with more handling prior to delivery.
