These weaned steers work well through pound and crush. None show aggression, a portion of the steers move swiftly under pressure.

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments	This is a quality line of steers with plenty of compensatory gain. These cattle have the genetics to back them and will perform well under the right conditions. There is a couple steers in the mob who are still cleaning up from the rubber ring castration. These steers still show more masculinity in features however still young enough to clean up nicely.
