Heifers flowed through cattle yards with ease. Cattle were all handled through round yard at assessment with only a small amount stirring up in the confined space under pressure but once back with the mob settled straight back down. Heifers need steadying up through gateways.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments	Buyers a total of 357 good quality PCAS eligible Santa & Santa X heifers that are all frame with plenty of compensatory gain to be had. Heifers are out of a very fertile cow herd that are known for producing cattle to perform on grain and grass. This line of heifers is predominantly '24' drop but have a small percentage of '23' drop weaner heifers in the run that were weaned at a young age. Heifers have had a chance with a bull but due to weight & condition don't expect many to have joined up successfully. Heifers will bounce away on green feed very quickly giving buyer options to trade on or keep a run of replacements out of them. Buyers you can bid with confidence as 100% of the 357 head were handled at assessment & weighed. This is a run out the gate with lots being offered as 2 x b-doubles & 1 x 4 deck unit. VENDER OFFERS THESE HEIFERS DELIVERED MORVEN, ROMA OR BLACKALL YARD.
