| Assessor Comments | A neat line of Droughtmaster weaners, comprising 35 steers and 24 heifers, representing the complete drop. These weaners have performed exceptionally well on the cows, showing excellent weight for age after a strong season at Valetta. They are in forward condition, sappy, and healthy showing all desirable Droughtmaster characteristics. The cows were bred at Fossil Dows, with top-quality Valera Vale bulls used over them to produce these weaners. Currently yard weaned on good quality had and handled daily, the weaners will quieten down further until delivery. Additionally, 4 Angus Cross steers and 1 Angus Cross Heifer are available if the buyer wishes to top up the truck. |
