Assessor Comments	Offering an exceptional opportunity for buyers with a line of 98 Vendor Bred HGP-Free #4 Heifers that have had all the hard work done. These heifers have been weaned, educated, and trucking experience, and they've had both Botulism and two 7-in-1 vaccinations. As a result, they are healthy, and in store condition—ready to perform. The cattle have been supplemented with Molafos Molasses since May. These wearers were bred Northern Coastal Queensland in tick country, they were sent to Barcaldine on agistment back in June, they are now in clean country and ready for an immediate delivery. It is a credit to the vendor on the work they have put in educating these wearers, it was noted by both myself and agistment property owner, in which they commended these wearers highly in their behavior around the property. A real opportunity as there as good compensatory weight gains to be had, buy and forget until after the wet. Also being offered in the same sale, 95 steers similar description.
