Vendor Comments	A good run of ORGANIC Santa and Santa cross steers that are showing plenty of frame and no excessive condition. These should really bounce ahead on either crop, grass or on feed. Only mouthed the No2 steers (1x2 tooth).

	Mustered to a relatively small set of portables in a congested environment yet very well and expertly handled with very good stockmanship the steers flowed through the race and crush well. A very small number were aggressive or agitated when confined or isolated yet settled well when returned to the mob. Cattle were turned out directly after assessment with horses and bikes and left the yard quietly.

Assessor Comments	Buyers a good to very good quality line of ORGANIC USDA, NOP and GAP certified steers that will suit all export feeder and/or organic programs. Santa and Santa cross steers that are noted performers on either crop, grass or grain. These steers presented in mainly store to forward store condition so as a result I would expect plenty of compensatory gain given the right feed conditions. Also noted the odd steer with a small amount of fly rub on the neck and face. Note there are multiple lots from Terrick in this sale, all 1 brand and require same day delivery.
