Chemical Residue	Clear - No known history.		
J-BAS Score	6		
Vendor Comments	A good run of ORGANIC Ultrablack cross steers that are showing plenty of frame and no excessive condition. These should really bounce ahead on either grass or feed. Only mouthed the No2 steers (1x2 tooth).		
Temperament	Yards	Crush	Paddock

	Mustered to a relatively small set of portables in a congested environment yet very well and expertly handled with very good stockmanship the steers flowed through the race and crush well. A very small number were aggressive or agitated when confined or isolated yet settled well when returned to the mob. Cattle were turned out directly after assessment with horses and bikes and left the yard quietly.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot		
Assessor Comments	Buyers a good to very good quality line of ORGANIC USDA, NOP and GAP certified steers that will suit all export feeder and/or organic programs. Ultrablack cross steers that are noted performers on either grass or grain. These steers presented in mainly store to forward store condition so as a result I would expect plenty of compensatory gain given the right feed conditions. Also noted the odd steer with a small amount of fly rub on the neck and face. There are multiple lots from Terrick in this sale, all 1 brand and require same day delivery.
