Assessor Comments	62 Vendor bred, NSM Heifers (Heifers have never had the opportunity.) 22-24 Mths. Forward store condition and cycling vigorously at assessment. 302-450Kg at assessment to average 363.9Kg curfewed. One heifer noted with very light scarring in near side eye, this is not considered to be detrimental. Ideal articles to join and retain as future breeders. Alternatively with the heifers moving forward so rappidly with the improving season the introduction of bulk quality nutrition should see them fatten to slaughter weights quickly.
