Assessor Comments	A VGQ line of quiet Angus heifers that have the potential for replacement breeders. These heifers would also make exceptional heifers to fatten for the trade market. All the hard work has been done on these heifers with a very strict handling program preformed at weaning. They come from a herd which is based on high Fertility. 2021 - PTIC 96%, 2022 - PTIC 98%, 2023 - PTIC 97% & 2024 - 96%. Please note a small percentage of heifers have white on their udder.
