Assessor Comments	Buyers, This is a great line of soft weaned No 4 xbred steers that ave 294 kg. Steers show nice muscle expression with length and stand up. These steers have good spring of rib plenty of frame and volume to fill out. They are very even in type and weight. Steers are out of medium to large frame Ularunda cross bred cows by good quality Black Simmental & Droughtmaster sires. These steers were very quiet to handle through yards. These steers have a very good reputation for performance on grass & grain. Vendor has other line in same sale.
