	110-130 cm	50%	Good	30%			D	20%
Temperament	Yards		Crush		Paddock			
	Quiet: 123 head Slightly Stirry: 5 head		Quiet: 120 head Slightly Stirry: 8 head		Quiet: 128 head			
	Steers were very good to handle through the yards. Very odd steer became a little stirred when in the crush but settled once it rejoined the mob. No steer became aggressive at all. Well handled young cattle. All bulls are all heavily selected on their temperament. Pride is taken in the handling, imprinting and weaning preparation of these cattle, based on low stress stock handling principles and care with genetic selection.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles							
Notable Traits	Traits 6 Head Sheath							
Assessor Comments	A great line of quality young Shorthorn steers that have been born into a good season and show the softness that Moombidary Shorthorns are known for. Steers handled very well throughout the assessment. There are 128 steers in this lot. This is a great opportunity to purchase top quality Shorthorn steers. These steers have decades of breeding behind them and will not disappoint on grass or grain. Ideal steers to take on and grow out for other markets. Steers have been in and around yards for the past 3 weeks due to extended mustering. I expect the steers to go ahead quickly with good compensatory weight gain. Same vendor has 3 lots of 97 Shorthorn steers in the same sale which makes a total 419 head of the one brand and type. At assessment steers had a weight range of 170kg-255kg to avg 217kg. Steers are very well handled and will not disappoint. Steers come highly recommended.							
Assessor	Bill Gibbs (Level 2 Accredited) Phone: 0484 888 884
