Assessor Comments A Commercial line of one brand, vendor bred, ready for feedlot backgrounding or joiner heifer. The vendor has a strict selection process when choosing sires and retaining females. Selecting sires with correct IMF traits has been a must, to ensure marbling in future offspring, Heifers have been growing out well. Please note some heifers show slight navel, appears to be genetic throw back from stud angus bulls used in the past on the maternal side. 3 heifers have white udders with some very slight white line forward of the udder. 3 head have old scaring though not detrimental to eye sight.
