Cattle flowed through yards well. A little bit runny if put under pressure but settled quickly. Odd steer exited crush very quickly but settled back into mob for photos well.

Notable Traits

| | Traits |
|---|---|
| 2 Head | Ring worm on face |

Assessor Comments: A light BDouble of very good quality Angus feeder steers. Steers are very forward and have been doing extremely well since the feed has hardened up. Steers are out of large framed cows and will grow to domestic and export weights if given the chance. Steers have all had their first shot of Bovillis MH + IBR so are ready to go onto feed if desired. Steers are predominantly MIllah Murrah and Blue E Angus blood with some bred by Rennylea blood bulls but do come from a Santa base many years ago so 2 head do have a slight infusion of the remaining Santa x Angus cows.
