	Cattle flowed through yards well. A little bit runny if put under pressure but settled quickly. Odd heifer exited crush very quickly but settled back into mob for photos well.			
Handled With	Bikes , Dogs , Vehicles			
Assessor Comments	Neat run of very good quality Angus feeder heifers. Heifers are very forward and have been doing extremely well since the feed has hardened up. Heifers are out of large framed cows and will grow to domestic and export weights if given the chance. Would also be suitable matrons if desired. Heifers have all had their first shot of Bovillis MH + IBR so are ready to go into feed pens if required. Heifers are predominantly Millah Murrah blood but do come from a Santa base many years ago so approx 6 head do have a slight infusion of the remaining Santa x Angus cows. Please note: 6 Black Baldy heifers were drafted out of this lot but could be used to fill two decks to help with freight.
