	These Heifers have a tendency to run when first put in the yards. A few did not settle and were a bit stirry more trying to get away rather than take you on. One you had to watch, she was ok in the mob but did react under pressure. To be fair we ran them in and started the assessing process straight away. They are Heifers that are easier to handle if left to settle first. A few did not like the crush but nothing unusual there. Heifers that are best handled by experienced operators.		
Handled With	Bikes , Vehicles		
Assessor Comments	A tidy line of well bred NSM Millah Murrah blood Heifers that are going forward and have the ideal weight, frame and conformation to grow into future breeders, alternatively they will finish on grain or grass.. The breeder has selected bulls on type not price and this shows through. There is another lot of steers also in this sale. Inspections prior to sale welcome.
