Assessor Comments	An excellent line of young autumn 2024 drop steers that are on the move and are starting to clean up in the coat. Steers have been weaned in August and have the potential to grow out well with plenty of shape, bone and style from the "Wollumbi" cow herd that is Hazeldean based. Grass-fed and Antibiotic free. Cattle that have performed very well over the past. Tops of the drop. 1 steer noticed with a cloudy eye at assessment refer to photos.
