Assessor Comments	NSM future breeder Angus heifers purchased via AuctionsPlus account Table Top Angus stud (Albury NSW) in March 2024. Direct the heart of the commercial herd and only sold due to seasonal conditions. Purchasers initial intentions were to retain as breeders however seasonal conditions are again forcing them onto the market. These heifers have had ample human interaction, having been supplementary fed for a few months and regularly visited. They are comfortable with humans and were responsive to pressure making them ideal to handle. 100% weighed 284-391kg. They are visibly cycling, shining in the coat and still gaining weight presenting them ideal for an immediate joining to your sire of choice. Table Top Angus focus on docility, structure, marbling and maternal traits as breeding objectives. These heifers carry the fundamentals to start a quality herd, would be a great addition to an existing herd or present as a trade proposition. Quality heifers with years of production ahead of them.
