Assessor Comments	50 pregnancy tested empty Watervalley Black Angus heifers to average 390.3kg Curfewed. They are an even line in forward fresh condition gaining weight and condition very quickly after a slow start to the season. Approx 10% with white udders, and 3 with a splash of white forward of naval. Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
