Assessor Comments	10 pregnancy tested empty Watervalley heifers to average 388.7kg Curfewed. A good run of heifers consisting of horns, scurs, brindles, reds, and white belly's offering a good cross bred influence with a good medium frame. Presenting in fresh forward store condition with good medium frames that are gaining weight quickly now coming off a dry start to season. Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
