Vendor Comments

Quiet, easy handling cattle that have not missed a beat through weaning. 14 to 20 thousand dollar bulls from Mandayen and Allendale sired these calves and we continue to see great results year in year out.

| Assessor Comments      | An outstanding line of 70 quiet, Angus Heifers that have great weight for their age. These heifers present in forward store condition and have not missed a beat. They were yard weaned in late October on hay, water and Transforce. They maintained a rising plane of nutrition during the whole weaning process. As a result, they have presented as fresh and sappy. They are a very even line that average just under 300kg and their temperament is superb, a treat to assess and handle these cattle. The vendor uses top quality Mandayen and Allendale AA Bulls over large framed, AA Cows to get the absolute best breeding quality for their calves. Please note a small number of these steers are still showing signs of their winter coats. These heifers are more than capable of suiting any operation and have all the potential to reach any set weight. An ideal line to turn out into future breeders. The vendor also has a line of 70 Weaned Steers on offer in the same sale. |                                                              |                                     |
