Assessor Comments	Buyers, a line of 78 vendor bred Angus cross heifers presenting in healthy store condition to have an estimated average delivery weight of 243.5kg. Heifers would be ideal to background for the feedlot market of your choice, fatten on crop or a large percentage also would be suitable to retain as future breeders. Please note: Delivery dates flexible if potential purchaser is affected by wet weather. 4 heifers were treated for light pink eye infections in 1 eye at assessment but will NOT be pulled out if haven't healed by delivery. This vendor has 3 sister lots in same sale.
