Assessor Comments	The annual draft of Redgum Pastoral Angus weaner Heifers. This line of heifers carry Ben Nevis and Bald Blair Angus genetics and average 249kg at assessment. This line of heifers have a very good reputation for performance and are the vendors lead line (no heifers retained). Heifers were weaned at assessment into the yards onto lucerne hay. All heifers are vendor bred and have never had access to grain. Vendor has a brother line offered in the same sale. Buyers please note heifers will be dropped into holding paddocks as soon as possible to do our best to avoid any lameness associated with yard weaning in wet conditions. Heifers have been sprayed with barricade after assessment.
