Assessor Comments	On offer is a good line of black feeder steers ready to go to the bins. These steers were purchased as 2 marks out of the Feature CTLX Blue Ribbon weaner sales, carry Gilmandyke and Mundurra Bloodlines with an even split. These cattle have grown out well and are only on the incline with the current favorable season. The have been treated with a HGP in Synovex S, and have bounced forward and are now out of any withholding periods associated with them. Steers show plenty of stretch and depth, and will only continue to develop excellent frames to carry plenty of beef.
