Assessor Comments	Excellent quality line of July/Aug 2023 drop Angus heifers that present in forward store and slightly forward condition. Heifers have grown out very well over the winter months and are in excellent condition. Range of bloodlines from predominantly Kenny's creek bulls used with the recent infusion of Bald Blair bloodlines over medium to large frame cows. With the proven breeding behind them, these heifers will make great future matrons to join to the bull of your choice or are ideal to feed on to take onto heavier weights if given the opportunity. Please note (2 Heifers with old pink eye scarring and were treated with cream at assessment/ 3-4 heifers with ringworm around the head)
