Temperament

Yards	Crush	Paddock
Quiet: 29 head Slightly Stirry: 1 head	Quiet: 26 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Extensively handled throughout their lives as a result of animal health treatments & cell grazing making them very calm to handle in yards, crush & paddock. A couple showed some very minor anxiety in the crush whilst being preg tested, with a bit of rocking and stomping (understandably). All exited the yards at a relaxed pace, quietly made their way down the lane and walked out in to the paddock.

Assessor Comments	122 Heifers ROTG. Impressive line of the well renowned & highly regarded Mintor Beef Heifers. By top end, high indexing, Table Top Angus sires, particularly targeting Bulls with strong maternal traits, top 400DW & +3IMF figures, often securing the top sale bulls annually (feedlot feedback averaged steers at 4.11 for IMF) These heifers have been out on agistment during the hard, dry start to the year & recently returned home. Drafted off as the potential keepers, given a PG to sync cycle, and put out with the bulls. The first, single round cycle has been retained, with the balance being offered for sale. These 122 Heifers were preg tested ND (< 20 days in calf) giving the buyers the opportunity to secure a potentially in calf heifer - at feeder price! Continue on grass, or start on feed, and if the PTIC job finds another gear, these are an excellent line of females to offer up. Please Note. Vendor has another lot of the detectable sisters in the Eastern States sale.
