Assessor Comments	Tops of the drops. These steers are the lead of 120 steers, they have been weaned at assessment and are being handled through the yards and put into holding paddocks until delivery. Ideal steers to grow into heavy feeders for the winter or take through into grass steers. Have been using Pathfinder bulls for a number so years and a small percentage of Bull Oak Well bulls. These steers come highly recommended and will preform in any country. ProStock will offer similar cattle from multiple vendors in the same area with vendors happy to deliver to Mt Compass Saleyards for ease of trucking multiple lots.
