Assessor Comments: Neat little line of heifer to tip out and grow into future breeders of trade/feeder heifers. These are the young drop calves out of this line with a small tail removed. Heifers are still running with their mothers until delivery but the cows look to have dried them off.. These heifer would normally be retained as breeders however the property is on the market so complete drop offered in this sale. Please be aware that a couple of bulls were retained out of the old stud cows and were removed from the mob at assessment. Vendor has multiple lots in the sale and ProStock will offer multiple lots from other vendors of similar cattle that can be delivered to Mt Compass Saleyards at the vendors cost.
