Assessor Comments	A nice line of Eaglehawk blood Angus x Angus steers that are grass fed & antibiotic free and will suit all programs. Steers are bred out of a self replacing cow herd based on Eaglehawk bloodlines. These steers show great bone and shape, Vendor has spared no expense securing top quality genetics. They are very good quality and would be ideal to take home and grow out to heavy feeders on crop or will suit MSA and grass fed markets or in a feedlot situation. Steers are very quiet, vendor has spent extensive time working them with dogs and running them through the yards. Please note vendor has other lot of steers in sale
