Steers were very good to handle in all areas of the yards. There was the odd steers that resented being in the crush and also a few that tended to move a bit quickly out in the bigger yards.

Assessor Comments	Buyers, 4 decks of very good quality Angus steers that have presented in excellent condition and seem to be doing very well. These steers will suit an export feedlot operator or to take to heavier weights as either heavier feeders or kill steers off grass/crop. Noted a few steers with some eye issues and especially a single steer that has an old blue eye (photo attached) that can be rejected at delivery if required. Balance mainly only have a blue dot in an eye or some old cloudy scarring. There is also a double deck of lighter steers at this property available or a further two lots (4 decks) of mainly Angus/Hereford steers located at Scone only about 40kms away that can be used to go with these. These currently have access to a grain ration in the paddock so aren't available to be used for grassfed slaughter markets. These were yarded about 4 hours prior to assessment.
